#### **More Detailed Information**

- Your Ongoing Flexible CSA share works as a rolling account. You may use it as needed throughout the year.
- When your account balance is used up, you may continue to make purchases at your share's discount level (20%, 15%, or 10% off) or you may renew your account by purchasing another share.
- Additional 10% off the price list if you pick up your share at the farm location, due to fuel costs and market fees at other locations.
- Best availability and variety during the summer will be during farmer's market pick up times. If you miss your pick up location of choice, your share may be picked up at any of the other market locations later in the week
- If you miss a week's pick up all together, you will not be penalized and your balance will be waiting for you the following week.
- You may use your share to purchase any produce available on the farm including vegetables, meat, and eggs.
- When quantities are limited, amount restrictions may apply, otherwise, market purchases will be made on a first come, first serve basis.
- Extra farm purchases and events will be at your share discount level (20%, 15%, or 10% off)
- Work Share hours are most needed during the gardening season, but opportunities to put in time may be available throughout the year (more details are available on our Work Share Information Sheet)
- Your Ongoing Flexible CSA share will include a reusable market bag to pick up your produce.
- This year we will be experimenting with a cooperative side of the CSA/Farmer's Markets to make available additional products for your convenience such as raw milk, goat cheese, etc. These products will be available to purchase with your CSA dollars but the discount will not apply. If you have a product that fits well with our market and want to participate in market sales, please contact us for more information.
